- o Anticipate toileting needs
- o Increase checks for residents with known fall risks
- o Ensure equipment (bed sensors, commodes) is in place and functioning.
- o Residents MUST not be left in a wheelchair unattended as it increases the risk of them falling out of the wheelchair.
- Residents known to wake early or become restless should be monitored closely.
- Preventative measures must be documented as evidence of risk reduction.

Duty of candour informs our learning and planning for improvements as a service, and as a company. It has helped us to remember that people who use our services have the right to know when things could be better, as well as when they go well.
